## ANC SAT Prep

Improve students' reading, writing, vocabulary and grammar to prepare them for the intensive study period and master the first stage of SAT preparation. Students will improve their exam-taking ability through SAT simulations, which is a good way to hone the students' test endurance and keep track of progress. All students will be given mock exams, which will be used to assess the students' current SAT levels, and those who have already taken the SAT can expect to improve their current scores.

The basic course will start with the vocabulary and basic knowledge of each subject, expand the students' vocabulary and master the basic knowledge points to prepare for the SAT intensive class. The intensive classes focus on the exam question types, knowledge points and exam methods and skills. Classes are small and aimed at the student's personal needs, with targeted detection of gaps and individualized teaching and one day of class review. Our instructors have more than 20 years of SAT and English tutoring experience and are trained in the methods of standardized test-taking and common exam techniques.

### Course Features

- Personalized Learning Plans
- Creative Learning Activities
- Skills and Strategies for Exam Taking
- Small Classes
- Specialized, Experienced Professors
- Targeted Coaching
- SAT Simulation Tests
- Accurately Measured Learning Status

ANC ESCO is a national 501(c)(3) nonprofit organization whose mission is to "enable individuals to achieve their academic and professional goals through acquiring a global mindset." ANC ESCO provides educational programs to international students, local students, professionals, and public/private organizations.
